

**POLYETHYLENE & POLYPROPYLENE  
WRAP AND SEWN COVERS**

**DESCRIPTION**

A high strength, lightweight coated fabric consisting of a reinforced polyethylene or polypropylene scrim, with coating on both sides. This material is designed for effective packaging of product during storage and transportation

**FABRIC**

Colors: Clear, Black/white, tan/white, or other color coatings available  
Weight: 90 to 120 gsm  
Weaving: 7 x 7 per sq.inch

**ROLLS**

Available in plain or printed (up- to 4 colors)  
Finished products available in flat or C-fold  
Compatible with most automated wrapping equipment  
Cores: 3" I.D., 4" I.D. or 5" I.D.  
Width: from 20" to 144" (printed up-to 140")  
Length: from 167 to 5000 yards

**SEWN COVERS**

Available in clear, plain or printed  
Ends can also be plain, printed or clear  
Available in a full range of dimensions

**OPTIONS:**

C Fold rolls, Staple Strip, Anti-slippery top coating.

**PRODUCT TECHNICAL DATA AND PERFORMANCE**

The following data are typical values for 95 gsm material and should not be considered specifications

**Tensile grab** Length: 73lbs - 33 kgs  
**ASTM D 5034 - 2009** Width: 77lbs - 35 kgs

**Tearing Strenght** Length: 24 lbs - 11 kgs  
**ASTM DZZ61 - 13** Width: 24 lbs - 11 kgs

**ASTM D3876 M 2013** 560 KPA

**Outdoor weathering:** more than 80% strength retained after 1000 hours

**Pliability:** minus 40C

**Storage:** material should be kept clean and dry. Keep the product away from direct heat source, sparks, ignition source and open flames  
If stored in piles, pyramid shape is recommended, always securing each side of the piles with blocking mechanism.

**Caution:** This product may be slippery when wet, dusty or covered with water, ice dew, frost or snow

**Disposal:** Always dispose in accordance with local laws .  
This product may be recyclable under certain conditions.  
Do not burn to dispose
